3. Try to achieve the below template by using **css flex**?

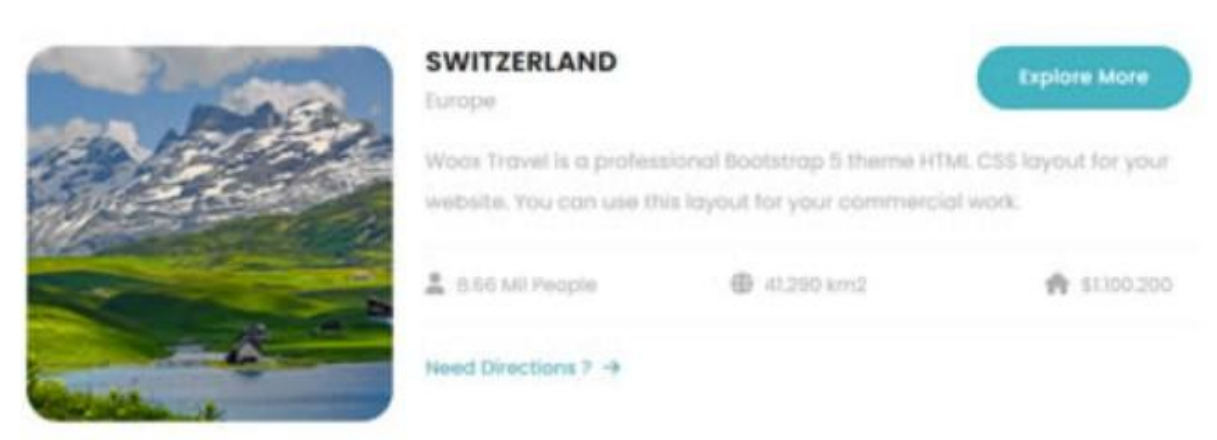

4. Try to achieve the below template by using **css flex**?

A contact form template with a dark blue background and a grid pattern. The form is titled "Contact Us" and includes a placeholder text: "Proin enim orci, tincidunt quis suscipit in, placerat nec est. Vestibulum posuere faucibus posuere. Quisque aliquam velit eget leo blandit egestas. Nulla id posuere felis, quis tristique nulla." The form contains three input fields: "Your Name", "Your Email", and "Message". To the right of the input fields are four contact options: "Chat Online", "mail@company.com", "Our Location", and "255-662-5566". A "Submit" button is located at the bottom of the form. The footer text reads: "Copyright © 2020 Company Name. Designed by TOOPLATE".

5. Try to achieve the below template by using **css flex**?

A travel card template for Switzerland. It features a large image of a Swiss landscape with snow-capped mountains and a lake. The title "SWITZERLAND" is prominently displayed, followed by "Europe". A button labeled "Explore More" is in the top right corner. Below the title, there is a paragraph: "Woox Travel is a professional Bootstrap 5 theme HTML CSS layout for your website. You can use this layout for your commercial work." At the bottom, there are three statistics: "8.66 Mil People", "41,290 km2", and "\$1,100,200". A link "Need Directions ? →" is also present.
